

Dietetic Technician Programs

Listed below are 51 Dietetic Technician Programs (DT). After each program's address is the accreditation status granted by Commission on Accreditation for Dietetics Education (CADE) and the date of the next program review. The accreditation status definitions are as follows:

- *Developmentally Accredited*—program not previously accredited that has not had a site visit and is being implemented according to the CADE Eligibility Requirements and Accreditation Standards (ERAS).
- *Candidacy for Accreditation*—program not previously accredited that has had one site visit and is being implemented according to the CADE ERAS.
- *Accredited*—program that has had at least one site visit and is in compliance with ERAS.
- *Probationary Accreditation*—program fails to comply with ERAS or published policies.
- *Accreditation Withdrawn*—program fails to comply with ERAS or published policies within a specified time period.

The DT program must provide required DT coursework and at least 450 hours of supervised practice within an academic program leading to an associate degree.

Graduates of CADE-accredited programs are eligible to write the CDR registration examination for dietetic technicians.

For information on a specific program, write directly to the program director.

Chino

Chaffey College

Chino Campus
